Objective

Seeking a data science internship to apply my technical and analytical skills in solving real-world challenges while gaining hands-on industry experience.

Experience

Business Intelligence Developer – Academic Project

SLIIT – Data Warehousing & Business Intelligence

Mar 2025 – Jun 2025

- Designed and implemented a complete Business Intelligence solution using the Microsoft BI stack (SSIS, SSAS, Power BI).
- Built a custom data warehouse and developed robust ETL pipelines in **SSIS**, applying transformations, **Slowly Changing Dimensions (SCD)**, and derived column logic.
- Structured the data into **fact and dimension tables**, supporting analytics across time, course, user, and department axes.
- Created an **OLAP cube in SSAS** with hierarchical dimensions and validated operations like **drilldown, roll-up, slice, and dice** using Excel pivot tables.
- Developed an **interactive Power BI dashboard** featuring slicers, drill-downs, and drill-through capabilities for deep user-level insights and executive overviews.
- Gained end-to-end experience in data modeling, ETL design, OLAP analysis, and interactive data storytelling.

Data Mining – Academic Project

SLIIT – Department of Data Science

- Worked with a video game dataset to predict global sales based on features such as genre, year, and development platform.
- Explored multiple machine learning models and selected **Random Forest Regressor** due to its superior accuracy.
- Performed data cleaning, feature selection, and model evaluation using **Python** and **Scikit-learn**.
- Successfully deployed the final model in a simple application to generate sales predictions based on user input.

Web-Based E-Commerce Platform (MERN Stack Project) - Academic Project

Sep 2023 – Dec 2023

- Developed a full-stack e-commerce site using MongoDB, Express.js, React, and Node.js.
- Handled backend API development, user authentication, and order management.
- Applied Agile methodology and version control (GitHub) for team collaboration.

Mobile App Developer- Academic Project

Jun 2023 – Aug 2023

- Developed a Kotlin-based Android game with smooth UI/UX and optimized performance.
- Integrated touch controls and animation logic for seamless gameplay on mid-range devices.

Education

- **B.Sc. (Hons) in Information Technology – Specializing in Data Science**
Sri Lanka Institute of Information Technology (SLIIT), Malabe, Sri Lanka
2022 – Present
- **Higher Diploma in Information Technology**
Sri Lanka Institute of Information Technology (SLIIT), Malabe, Sri Lanka
Expected Completion: December 2024
- **G.C.E. Advanced Level (Physical Science Stream)**
St. Sylvester's College, Kandy, Sri Lanka
August 2019
- **G.C.E. Ordinary Level**
St. Sylvester's College, Kandy, Sri Lanka
December 2016

Skills & abilities

- Programming Languages: PHP, Java, Python, SQL, JavaScript, React.js, Kotlin
- Machine Learning: Regression, Classification, CNNs, RNNs, Recommendation Systems
- Databases: MongoDB, MySQL, SQL Server
- Tools: Power BI, Git, Jupyter Notebook, Android Studio, Figma

CERTIFICATIONS

- AWS Educate Introduction to Generative AI – AWS – Dec 2024
- AWS Educate Introduction to Cloud 101 – AWS – Nov 2024
- AWS Educate Machine Learning Foundations – AWS – Nov 2024
- Power BI Beginner to Pro Workshop – Simplilearn – Dec 2024
- Python for Beginners – University of Moratuwa – Jul 2024
- AI/ML Engineer - Stage 1 – SLIIT – Jun 2024
- AI/ML Engineer - Stage 2 – SLIIT – Dec 2024
- Problem Solving (Basic) – HackerRank – Dec 2024
- SQL (Basic) – HackerRank – Dec 2024

EXTRACURRICULAR ACTIVITIES

- Chief Organizer – IT Club, St.Sylvester's College
Led tech meetups and workshops; managed event logistics and speaker coordination.
- Junior Cadet – Naval Cadet Program, St.Sylvester's College
Developed discipline, leadership, and teamwork through structured training and drills.
